Now everything makes sense. It was just a guy who was so afraid of 5G for no explainable reason that he decided to make a bomb, drive it to AT&T which is clearly the most obvious strategic target for a random bombing. And of course on Christmas Day at 7 in the morning, because this is the perfect time for a man who left no known traces of his identity or motives to bomb a random, yet apparently vital spot to AT&T's operations while not even using his own voice for a PA system telling everyone to evacuate the place he was bombing for political reasons. And to throw away a perfectly good RV at age 63 in the most uncertain financial period we've had for the last decade.

It's not exactly a larp the whole qanon thing is real, but it isn't what they think it is. The betrayal must be subtle yet absolute. Key to managing a larger force with a smaller force is always through secrecy and compartmentalization. Dividing and conquering is easy when the left hand doesn't know what the right is doing. Worse yet there is even inter-agency propaganda, like hyper-d&c tactics between actual patriotic groups to steer them towards mutual destruction.

Only one photo of the RV on scene in downtown Nashville has been released, correct?

No plate numbers? No photos of the driver. No photos of the driver exiting the RV.

No other audio/video of the RV's evacuation message than the Nest video. Only one other video, no audio, of the explosion itself which some say occurs opposite the RV, meaning the RV isn't the source. And it's a valid argument.

Connection between Anthony Warner and Michelle Swing, who was given the claims to Warner's houses but semi-reneged, remains unclear?

No photos released of Warner as an adult, only one as alleged long haired teenager. Warner is speculated to own a Custom Alarm repair company and to have worked at Bell South. Did IT work on the side for a boss who shot down Warner's alleged interest in 5G conspiracy, and did not agree that Warner was a nutter, unlike apparent neighbors.

RV on Warner's property seen on Google Maps speculated to not be exact match as bomb RV, but it does pass a strong resemblance.

Warner has no wives or children. His bother passed from the Big C in the last two years, his father passed in 2011. Father worked at Bell South. Theorized to be a veteran.

Possible motive not stated: if Warner's father and brother both passed from the Big C and both worked for Bell South or in that field, Warner may have thought their deaths were caused by ATT etc. If Warner himself got the Big C, this may explain transferring over his homes for $0 to Michelle Swing. People who are suicidal or terminal often unload their belongings in surprising ways.

Anything else?

Observe how the media automatically equates Warner's alleged "paranoia" and interest in the harmful effects with 5G with being a terrorist. The way they word these claims is a false equivalence. A person can be "paranoid" about 5G and not be a bomber. A person can also be "paranoid" about 5G and bomb a building, even an ATT building, but that doesn't mean the person's motive was 5G.

You still don't seem to get it. There is no hope dude, there is no out to all this except for the possibility that Q was the literal Trump card. If Trump or his admin are compromised to the core, then there was never any hope to begin with and we never stood a chance. It means that (((they))) have such vast resources and power that they can throw a massive show for everybody, to where even the deepest virtual urchins like us can get swept up in the bullshit trying to look for answers. Not even a completely decentralized international information network could break through the lies at that point, and it's only a matter of time before the last mask falls and they take everything from us simply for playing the game good enough to be threat worth removing. If Q or Trump fail to stop the corruption, let alone if they were a part of it, then we've been in checkmate for 80+ years and there's nothing else better to do than watch it all play out. If there's anything this bomber proved, real or fake, it's that not even bombs can put a real dent into the systems of power.

Yesterday morning, Christmas morning, 630 am. A RV packed with explosives exploded outside the warehouse that was storing these voting machines. 20 buildings were damaged.

We were warned a while back

JFK Speech The Monolithic and Ruthless Conspiracy

https://www.youtube.com/watch?v=RhkjYJAHCjM

The International Khazar Mafia

International Jews.

In violent opposition to all this sphere of Jewish effort rise the schemes of the International Jews. The adherents of this sinister confederacy are mostly men reared up among the unhappy populations of countries where Jews are persecuted on account of their race/crime cult. Most, if not all, of them have forsaken the faith of their forefathers, and divorced from their minds all spiritual hopes of the next world. This movement among the Jews is not new. From the days of Spartacus-Weishaupt to those of Karl Marx, and down to

Trotsky (Russia), Bela Kun (Hungary), Rosa Luxembourg (Germany), and Emma Goldman (United States), this world-wide conspiracy for the overthrow of civilisation and for the reconstitution of society on the basis of arrested development, of envious malevolence, and impossible equality, has been steadily growing. It played, as a modern writer, Mrs. Webster, has so ably shown, a definitely recognisable part in the tragedy of the French Revolution. It has been the mainspring of every subversive movement during the Nineteenth Century; and now at last this band of extraordinary personalities from the underworld of the great cities of Europe and America have gripped the Russian (now American 2021) people by the hair of their heads and have become practically the undisputed masters of that enormous empire.

Winston Churchill; Illustrated Sunday Herald (London), February 8, 1920, pg. 5

https://www.jrseco.com/european-union-5g-appeal-scientists-warn-of-potential-serious-health-effects-of-5g/

In an appeal to the European Union, more than 180 scientists and doctors from 36 countries warn about the danger of 5G, which will lead to a massive increase in involuntary exposure to electromagnetic radiation. The scientists urge the EU to follow Resolution 1815 of the Council of Europe, asking for an independent task force to reassess the health effects.

“We, the undersigned scientists, recommend a moratorium on the roll-out of the fifth generation, 5G, for telecommunication until potential hazards for human health and the environment have been fully investigated by scientists independent from industry. 5G will substantially increase exposure to radiofrequency electromagnetic fields (RF-EMF) on top of the 2G, 3G, 4G, WiFi etc. for telecommunications already in place. RF-EMF has been proven to be harmful for humans and the environment.”

Effects include increased cancer risk, cellular stress, increase in harmful free radicals, genetic damages, structural and functional changes of the reproductive system, learning and memory deficits, neurological disorders, and negative impacts on general well-being in humans. Damage goes well beyond the human race, as there is growing evidence of harmful effects to both plant and animal life.”

white priviledge means you project your standards of fairness and order onto non-whites. Non-whites sit around tables every day around the world and conspire against your race while you jerk off to jewish porn. Conspiracy just means a few people planning something illegal. CIA made conspiracy an automatic reaction phrase after people questioned the Mossad/CIA killing of JFK

How would someone even engineer a message like that so clearly as a warning in forward and a "Are you having a merry christmas" in reverse? Does software exist for accomplishing this?

Yeah right. Like someone would be able to do all this planning, making explosives, etc - whilst staying completely under the radar.

Also, any ATT building could have been targeted - but this one in particular is one of a handful of sites with critical infrastructure.

I don't buy it.

You always put those random honks and whilstles into warning messages to get people to play closer attention to it.

The merry christmas is pure coincidence. You've got to think about these things rationally. What would be the point of engineering a message that sounds completely normal forwards but says "merry christmas" in reverse.

Why would you do that if you're then going to shoot something and then blow something up? It doesn't have any real meaning. At /most/ it would is just a joke they'd be playing on investigators.

I don't know what the meaning would be. But this is the ONLY audio released of the "Warning Message." There is no existing audio of all of the other described warning (the 15 minute countdown and music).

All we have is this...and when you reverse it, it pretty clearly says "Merry Christmas" at least for a bomb that went off on Christmas.

I don't know what it means, but it scares me.

Why? Like I said, if you do genuinely believe that it says "merry christmas" and was designed to do that. Then using occams razor you would realise it would have just been put in there as a joke to investigators. Nothing more than that.
